Keep Workers Safe and Productive in Hot Environments.

<<sub-headline>>

Prevent life-threatening injuries and reduce workers' compensation costs with solutions from COOLSHIRT SYSTEMS.

<<technical specifications>>

Cooling Engines

Rehab Station Complete

AVRSC-2, AVRSC-4, and AVRSC-6

- Quickly cool down workers to normal temperatures.
- Rehab up to 6 people simultaneously.
- Simple setup (direct-wired 110V system). Works with ice and water.
- Choose 2, 4, or 6-person system. Includes vests and hoses.
- Largest system is 41 lb, 21x21x24 in.

MOBILECOOL Portable Bag System (6 and 12 quart sizes)

BS-6 and BS-12

- Waterproof canvas bag provides portable cooling therapy.
- Works with COOLSHIRT garments and therapy pads.
- Choose between models: 1 or 2 cooling hours.
- 12V internal pump with a 500-hour life.
- Sold with or w/o lithium ion battery kit. Hose sold separately.

MOBILECOOL BP2 Portable Backpack System

BPC-220

- Self-contained portable system for cooling therapy.
- Use with COOLSHIRT garments and therapy pads.
- 7.4V power. 1 lb, 5x6x5 in.
- Sold with or w/o lithium ion battery kit. Hose sold separately.

MOBILECOOL WP1 Portable Waistpack System

WPC-120

- Self-contained portable system for cooling therapy.
- Connects with COOLSHIRT garments and therapy pads.
- 2 lb, 7x3x19 in.
- Sold with or w/o lithium ion battery kit. Hose sold separately.

PROCOOL CO2 SYSTEM COMPLETE

PCS2

- The world's lightest untethered active cooling garment.
- Cooled by refillable liquid CO2 tanks; needs no ice or electricity.
- Includes garment, hose, and control module.
- Weighs only 1.8 lb. One size fits most.
- Machine-washable, moisture-wicking fabric.

Single-Person Cooler System (Cooler Only)

D-110-12 and D-110-24

- Helps workers stay comfortable in hot environments.
- Can also be used as a remote cooling station.
- Choose either 12 qt or 24 qt sizes.
- Cooler only. Hoses and garments sold separately.

Garments

All garments are available in sizes small to XXL unless otherwise noted, and other sizes are available by special order. Each works with any of COOLSHIRT SYSTEM'S ice-water-based devices.

*Every garment uses safety-pull releases for fast connections and disconnects to get workers back on the job faster. Each has patented non-kink tubing for consistent and continual cooling. **No special care** is necessary: machine wash and hang dry.*

2 COOL FR

2CWFR-Size

- Top-of-the-line cooling undershirt for workers.
- Flame-retardant and fire-rated SFI 3.3.
- Superior moisture-wicking and anti-microbial protection.
- Machine wash and dry. Won't shrink, pick, or fade.

2 COOL WATER SHIRT

2CW-Size (Also available in sleeveless: 2CWS-Size)

- Compression cooling undershirt for workers.
- Compatible with COOLSHIRT's ice-water-based devices.
- Superior moisture-wicking and anti-microbial protection.
- Interior "clean seam" tubing provides direct-to-skin cooling.
- Machine wash and dry. Won't shrink, pick, or fade.

2 COOL WATER PANTS

CP-Size

- Circulates cooling water throughout the lower body.
- Requires use of any COOLSHIRT ice-water-based shirt.
- Made of comfortable compression fabric.
- Machine wash and dry. Won't shrink, pick, or fade.

Active AQUA VEST

AVA-Size (M to XXXL)

- Cooling garment helps stabilize body temperature.
- Easy to use and remove for fast rehabilitation.
- Vest design provides quick access for checking vital signs.
- Works with COOLSHIRT's ice water-based cooling devices.

COOL WATER SHIRT

Available in white (CW-Size) and black (BCW-Size)

- Compatible with COOLSHIRT's ice-water-based devices.
- Superior moisture-wicking and anti-microbial protection.
- "Clean seam" tubing sewn into interior of garment.
- Machine wash and dry. Won't shrink, pick, or fade.

White Hooded COOL WATER SHIRT

CWH-Size

- Complete cooling system for the head and torso.
- Excellent moisture-wicking and anti-microbial protection.
- Exterior "clean seam" tubing sewn into garment.
- Machine wash and dry. Won't shrink, pick, or fade.

Custom COOLSHIRT Tubing

Contact for details

- Turn any garment into a customized COOLSHIRT.
- Have tubing sewn into apparel you provide.
- Works with COOLSHIRT's ice-water-based cooling devices.

Options & Accessories

Drain Kit

DH-1

- 2 lg female w/ 2 ft hose & 1 male.
- 0.05 lb, 2x1x2 in.

Lithium Ion Battery Kit

LITH-Kit

- Offers 7-hour duration.
- Comes with charger and connector.
- 0.05 lb, 9x6x9 in.

Maintenance Additive (16 oz Bottle or 12 Bottle Case)

MA-16 and MAC-16

- Non-toxic biodegradable cooling engine cleaner.
- Works with all COOLSHIRT SYSTEMS.
- Regular use improves lifetime performance.

Safety-Pull Release Connectors (1 Pair)

PRC-2

- Functions like a standard C-FLM female release.
- Disconnects faster by using a pressure-release system.

Universal Connection Kit

UK-8

- Replacement connectors for repairs or draining.
- Comes with (4) C-FLM female connectors, (4) C-MLS male connectors, (6) O-Rings, and replacement part for male connector.

Water Hose

H-8, H-10, H-12, and H-20

- Available in 8, 10, 12, and 20 ft sizes.
