**Title Tag:** LifeValet | Accessibility Products for Interior Design

**Meta Description:** LifeValet transforms accessibility products that you've had to live with into fixtures and accessories you can't live without -- for home and commercial spaces.

{Hero section with image or video. Maybe show off different products in action.}

## **Safety, meet style.**

LifeValet transforms the accessibility products that you've had to live with into fixtures and accessories you can't live without. We unite form and function to enhance comfort, safety, and wellbeing.

{Body section}

## Design without compromise

LifeValet re-imagines, manufactures, and markets fixtures and accessories for residential and commercial spaces. Our products are for architects, builders, and interior designers who require accessibility but are unwilling to sacrifice style.

{Gigantic image of BLEND Grab Bar. See [REDACTED] for an example of what I'm thinking. Screenshot below.}

{As you introduce future products, you can create more sections like this to follow immediately after in a vertical stack.}

### **BLEND Grab Bars**

**Match any room. Fit any layout.**

Every grab bar you've ever met has been bland and obtrusive. Until now. See why BLEND Grab Bars are a completely new approach to creating safe and attractive spaces.

<<See BLEND Grab Bars<</blend-grab-bars>>

**“Testimonial quotation.”**

Name, Company

{The two sections below go together, so you might find a way through design to demonstrate this. Maybe they have the same color palette or they’re stacked right on top of one another.}

**You want a space that feels distinctive.  
Not institutional.**

You use accessibility products in home and commercial projects. Your goals are to improve mobility, provide peace of mind, and reduce everyday hazards.

However, traditional fixtures are bulky. Unappealing. Inflexible. You need solutions that move past these limitations.

{Maybe an image of old grab bars versus new.}

{This could be an image representing manufacturing prowess, experience, or the team behind the scenes.}

**LifeValet combines form and function for greater freedom in your design.**

We are a team of product design specialists and industrial engineers focused on transforming accessibility.

With more than 20 years of experience in manufacturing, quality assurance, and design, you can rely on our quality and innovation.

**Intended URL:** /blend-grab-bars

**Current URL:** same

**Title Tag:** BLEND Grab Bars | LifeValet

**Meta Description:** Match any room. Fit any layout. BLEND Grab Bars are customizable and modular, helping you create a distinctive space while preventing slips and falls.

--

{Hero section. See [REDACTED] and [REDACTED] for examples. I used a little of both designs while laying out the copy.}

## BLEND Grab Bars

**Match any room. Fit any layout.  
Design for accessibility.**

{Huge image of selected model. Maybe it will transition slowly between the retractable model image and the surface-mounted image until the user selects a model option at the right side. Then, it would just show the selected option.

Also, you might want to include the name of the model below the image so that “Retractable Model” shows up when the retractable option is on the screen.

You might include a brief gif or video for each as well.}

You want a room that feels distinctive -- not institutional. BLEND Grab Bars are a completely new approach to creating safe and attractive spaces. They're tile-ready, customizable, and modular. Choose from dozens of finishes and inserts to compliment your design, or apply your own tile for grab bars that simply blend in.

**Select model:**

X Retractable    O Surface Mounted

**See finishes:**

{Selectable finishes here.}

{Body section}

**You've finally met the perfect match -- for your space**

**Grab bars have always loved you.**

They gave you independence. Privacy. Safety. They were there at your most vulnerable moments and whenever you might have made a misstep.

**But you could never love them back.**

Every grab bar you've ever met has been bland and obtrusive. A metal monument to function over form.

**Until now.**

{Image. Maybe that comparison shot from the brochure showing the difference between traditional grab bars and BLEND.}

**BLEND Grab Bars fit right in with your plans**

<p><b>“Testimonial quotation.”</b></p> <p><i>Name, Company</i></p>	<p><b>“Testimonial quotation.”</b></p> <p><i>Name, Company</i></p>
<p><b>“Testimonial quotation.”</b></p> <p><i>Name, Company</i></p>	<p><b>“Testimonial quotation.”</b></p> <p><i>Name, Company</i></p>

<p><b>Have them look any way you want</b></p> <p>With a first-of-its-kind customizable face, BLEND Grab Bars offer a variety of finishes and inserts. You can even apply your own tile for a grab bar that goes perfectly with your design.</p>	<p>{Image demonstrating customizable front face and different finishes / styles}</p>
---	--

{Images of both the surface-mounted version and the retractable version.}

**Show them off or hide them away**

Choose from two models. The *patented surface-mounted version* can stand out as a design accent or fade into the background. The *patent-pending retractable version* is there when you need it and gone when you don't.

**Install where you need them most**

A modular system lets you angle, lengthen, and position our surface-mounted BLEND Grab Bars to fit your space. Wrap around walls, mount grips at different heights, and ensure compliance with building codes.

{Image of modular system.}

{Images of these features

**Make it easy to keep surfaces clean**

Retractable BLEND Grab Bars have an anti-mold design and simple-to-sanitize features. Drainage holes, angled faces, and non-porous materials help keep BLEND hygienic and as easy to clean as the surrounding tile.

## Provide peace of mind and reduce everyday hazards

<p>People have to feel safe in the space you create. That means helping prevent slips and falls. In the United States each year:</p> <ul style="list-style-type: none"><li>• Falls makes up about one-third of preventable nonfatal injuries.</li><li>• Every year, more than one in four older adults reports a fall.</li><li>• One in five falls by older adults causes a serious injury, such as a broken bone or head trauma.</li></ul> <p>Sources: <a href="#">National Safety Council</a> and <a href="#">Center for Disease Control</a></p>	<p>Grab bars are a simple way to reduce these risks. They assist with balance, make daily activities easier, and add comfort in rooms with potential hazards. It's one of the reasons grab bars are part of ADA standards for accessible design in public buildings.</p> <p><b>BLEND Grab Bars</b> are the result of LifeValet's rigorous research and testing. Components are manufactured from 304 stainless steel or aluminum, and BLEND's unique design meets or exceeds ADA safety standards.</p>
--	--

### How will you design differently?

{Here, you might include a gallery of images showing off how the bars are used in different settings, configurations, rooms, etc. Maybe two rows of three with the ability to swipe and see more.}

## No more compromises. With BLEND Grab Bars, safety meets style.

<p>{Huge image of BLEND grab bars}</p>	<p>Design with more freedom. Make spaces more accessible. Enhance your project with BLEND Grab Bars.</p> <p><b>Be the first to know!</b></p> <p>&lt;&lt;Notify me when BLEND launches&lt;&lt;button&gt;&gt;</p> <p>{FORM EXPANDS HERE}</p> <p>Receive updates via: {Social icons with links go here}</p>

**“Testimonial quotation.”**

*Name, Company*

**A team of product designers and industrial engineers  
focused on transforming accessibility**

LifeValet was created by the founders of NuWhirl Systems Corp, which designs, produces, and markets the innovative components that shape the bathing industry. Its team has more

than 20 years of experience in manufacturing, quality assurance, and design. The same commitment to quality and innovation that made NuWhirl a market leader is the driving force behind LifeValet.

**Innovation**

LifeValet identifies interior design products that are essential for safety and accessibility but inaesthetic or inflexible in design. Then, we re-imagine them.

By improving their best features and eliminating their pain-points, we give designers and consumers an entirely new relationship with fixtures and accessories.

{Smaller image}

<p>{Smaller image}</p>	<h3>Quality</h3> <p>Every LifeValet product is supported by a team with decades of experience in UL, IAPMO, and CSA certification.</p> <p>We verify the quality of raw materials and inspect 100% of the components we manufacturer. We also follow an in-house, ISO 9000-compliant program that helps us continuously improve our processes.</p>
------------------------	---

<h3>Design</h3> <p>At LifeValet, we apply inventive thinking and integrative design to our products. This approach transforms accessories and fixtures into elegant focal points -- instead of aesthetic challenges.</p> <p>Our designers and engineers work in partnership on each project. Together, we take undervalued products and recreate them as standout features of a home or commercial space.</p>	<p>{Smaller image}</p>
