## TOUCHSTONE™ Dual-Load Controller

<<Lead Paragraph>>

NuWhirl's TOUCHSTONE Dual-Load Controller is an ideal, low-cost solution for combination air / water systems. It is particularly suited for walk-in and entry-level bathtubs. This controller is the **only** "one box" system that operates two loads totaling 15 or 20 amps (depending on the model) plus LED bath lights.

<<Features / Benefits >>

**All-in-One** Eliminates the need for and cost of multiple control boxes, additional wiring, and multiple mountings.

**Flexible** Controls a variety of systems, such as pumps, variable-speed blowers, conductive water detection, and LED bathtub lights, all powered from a single outlet.

**Powerful** Handles two loads totaling up to 15 or 20 amps (depending on the model) through dual NEMA receptacles.

**Adaptive** Provides for multiple software configurations. A single unit can be tailored to serve many different devices.

**Sized for Smaller Tubs** Offers a reduced footprint for easy installation in tight spaces.

**Operates by Keypad or Switch** Supports any combination of up to three air switches and single- or multi-button electronic keypads.

**Immediately Available** Product in stock. No minimums. Optional same-day shipping.

**Exceptional Service** For over 25 years, TOUCHSTONE products have been supported by the best engineering, sales, and customer care in the whirlpool bath industry.
