

TOUCHSTONE[®]

ELECTRONIC CONTROLS

SIMPLE INSTALLATION.
MODERN DESIGN.
COMPLETE CUSTOMIZATION.

TOUCHSTONE electronics operate every luxury bath feature while reducing costs, complexity, and production time.

WHY BATHTUB MANUFACTURERS LOVE

TOUCHSTONE®

ELECTRONIC CONTROLS

NuWhirl's comprehensive line of feature-rich bath controllers, standalone units, and keypads

Customizable Components

By choosing how your TOUCHSTONE parts operate and look, you can build bathtubs efficiently, cost effectively, and in a way that distinguishes your products.

Streamlined Design

TOUCHSTONE parts support many features but keep a small footprint. Manufacture bathtubs without the complication of additional wiring and mountings.

Exceptional Value

Our parts provide outstanding functionality while reducing material, labor, and installation costs for bath manufacturers.

Explore our components and learn more about why manufacturers love TOUCHSTONE.

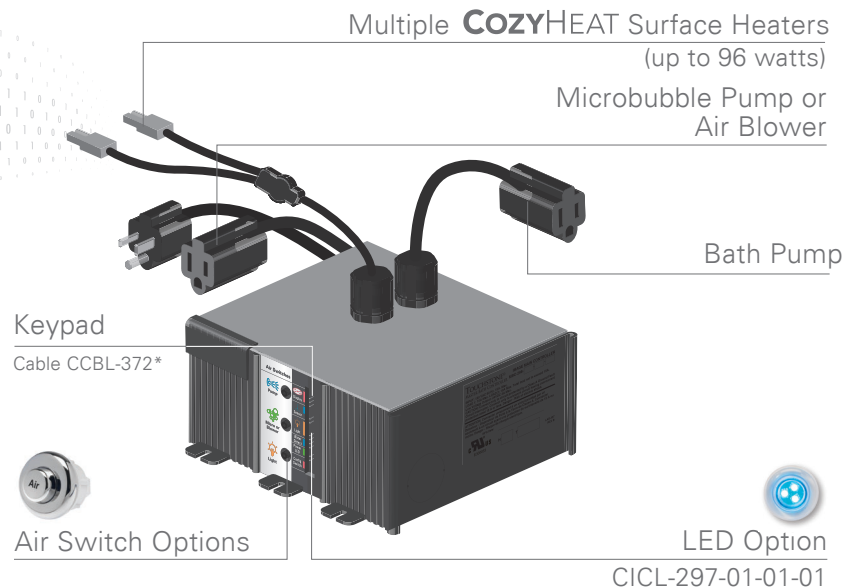

FEATURE-RICH BATH CONTROLLERS

Manufacturers that have to inventory and switch out controllers for each of their bathtub models face increased expense, production time, and chance of error.

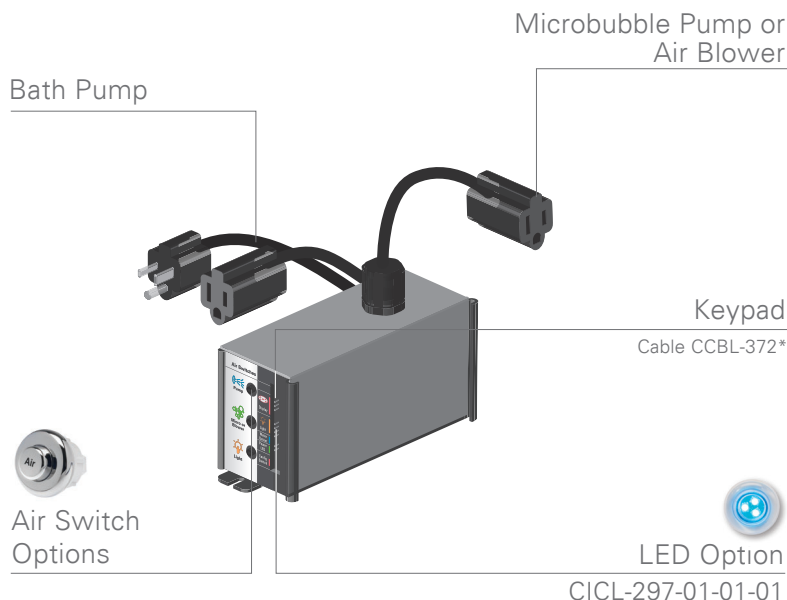

With TOUCHSTONE®, there's no need for stocking and swapping multiple types of controllers. Choose features right from your production line.

MASTER BATH CONTROLLER CMBC-298 Series

**One Box.
One Plug.
One Solution.**

DUAL-LOAD CONTROLLER CIMC-296 Series

FEATURES & BENEFITS

All-in-One Control

Customize our feature-rich controllers right from the production line with one-of-a-kind "selection software." TOUCHSTONE accommodates dozens of features, like single and multi-speed, LEDs, and timers.

Smart Design Simplifies Installation

TOUCHSTONE is the only one-box system powered by a single NEMA cord. The controller takes two loads totaling 15 or 20 amps, plus LED lights, with no messy wiring required.

*System options may require additional cables.

CUSTOMIZABLE ELECTRONIC KEYPADS

All-in-One Control Over Feature-Rich Bathtubs

TOUCHSTONE® keypads offer a simple, beautiful, and cost-effective way to operate jets, air blowers, pumps, and other features.

GEN II

Compatible with CMBC-296, CIMC-298, CIHC-300, and CILA-306 Series Controllers

SLIM KEYPADS
CIDU-315-06 Series
Small contemporary style.
Up to six bath features.

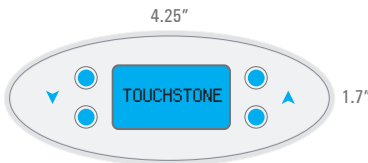

HORIZONTAL MASTER KEYPADS
CIDU-315-05 Series
Up to six bath features.

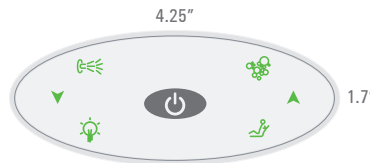

Add logos, change colors, and more

Overlay graphics and the configuration software are 100% customizable.

OVAL LCD MASTER KEYPADS
CIDU-264-03 Series
Programmable pixel LCD screen.
Up to six bath features.

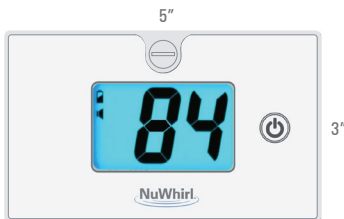

OVAL MASTER KEYPADS
CIDU-264-02 Series
Up to seven bath features.

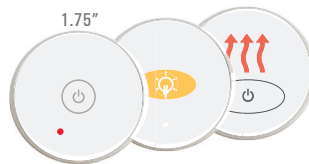

Is speed your priority?

Standard design keypads are an attractive alternative that's ready to ship with no ordering minimums.

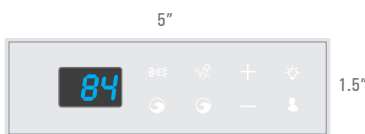

TEMPERATURE DISPLAY
CITD-312 Series
Audible safety alarm.
Up to six bath features.

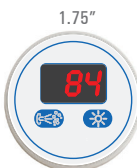

ROUND KEYPADS
CIDU-252-03 Series
Up to four bath features.

COMMAND-SERIES

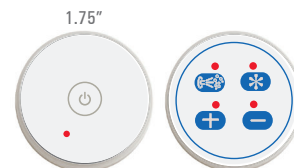

Compatible with CIMC-213, 263, and 288 Series Controllers

COMMAND PLUS AIR AND WATER KEYPADS
CIDU-315-03 Series
Temp. display with water-level sensing. Up to eight bath features.

COMMAND PLUS ROUND AIR OR WATER KEYPADS
CIDU-254-01 Series
Temp. display with water-level sensing. Up to two bath features.

COMMAND ROUND AIR OR WATER KEYPADS
CIDU-252-01 Series
Up to four bath features.

STANDALONE CONTROLLERS

TOUCHSTONE® has designed each standalone unit to simplify installation, support luxury bath features with a smaller footprint, and reduce the overall expense of manufacturing. Excellent quality and innovative design make it all possible.

COMMAND FLOW CIMC-288 Series

Variable-speed pump controller with LED and temperature-sensing options.

COMMAND WATER CIMC-263 Series

Simple on/off control with optional LED. Ideal for single-speed pump applications.

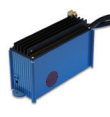

COMMAND AIR CIMC-213 Series

Air massage controller with LED and temperature-sensing options.

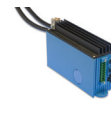

CAST AIR CONTROLLER CAST-201 Series

Controller operates air massage or water pump with air switch.

AUXILIARY UNITS CIAU Series

Unit links any TOUCHSTONE controller, easily adding features like pumps and air blowers.

SOLENOID DRIVER CISC Series

System operates up to four solenoids for back jets, pillow jets, and waterfall features.

HEATER & LIGHT CONTROLLER CIHC-300 Series

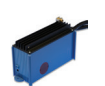

Surface heater controller. Optional LED. Operated by keypad.

LIGHT CONTROLLER CILA-306 Series

LED controller operated by air switch or keypad.

THE BEAUTY OF WATER.
THE SCIENCE OF RENEWAL.

Build Great Bathtubs Better with **TOUCHSTONE®**

NuWhirl Systems Corp is a leading producer of innovative, high-quality bath components, including the TOUCHSTONE line of controls.

We make it easy for bath manufacturers to transition to NuWhirl. It's one of the reasons nearly 70% of the industry partners with us.

Manufacturers choose NuWhirl because our components and systems offer the features and reliability their customers want. We also:

Maintain a reasonable lead time with all parts.

Place no order minimums on standard products.

Offer free freight on orders over \$10,000.

Back our parts with 30+ years of product development experience.

Contact our sales team to explore TOUCHSTONE and all of NuWhirl's products.
